

Assignment #01

Hope To Skills

Free Artificial Intelligence Course

Instructor: Irfan Malik, Dr. Sheraz

Submission:

- Add yourself in the [Google Classroom](#) using the Code **4kap34u**
- Make Submission in the Assignment-01 portal and press the submit button.
- Submit a **.pdf** file detailing all the information. No other format will be accepted
- Submission file should be named as **HTS_Assignment_01.pdf**
- Late submission will be rewarded **zero**.
- Deadline for this Assignment is **Sunday 04-06-2023**
- Strictly follow the submission deadline.

Task 01: Prompt Generation using Chat GPT

- You have to generate some interesting prompts using chatGPT for Stable Diffusion.
- The prompts must mention the image main features that you want to create.
- Generate at least **two** prompts for each Category.

Here are some categories that you can opt for images

1. Landscapes
2. Animals
3. Abstract Art
4. Cityscapes
5. Sci-Fi and Fantasy
6. Portraits
7. Still Life
8. Nature and Botanicals
9. Architecture
10. Surrealism

Task 02: Generating the image using Stable Diffusion

- Use the stable diffusion to generate the images using previously generated prompts from chatGPT.
- There must be 10 different images generated from Stable diffusion.
- Paste the prompt and the generated image in the Document.
- The images and prompts will be graded on the basis of their quality.
- Bad prompt and image quality will result in deduction of marks.
